

# Excipio Hand-Held Imaging System

**From:** Roger Austin

**Date:** Feb 02 1999

**Photographs/Prints:** Upon Request to the issuer

(Florence, SC) SATIS, Inc. is pleased to announce the completion of an agreement with Moritex USA to provide sales and marketing for a new handheld computer system. Designed to accept a customer's PCI card, the pen-based unit is especially well-suited for the medical and scientific digital imaging markets as well as the legal and insurance markets.

The Excipio™ handheld computer runs MS Windows 95/98 MS DOS or UNIX operating systems. The unit is available with VisionWare 99™ software for powerful image acquisition and archival. With a size of only 9" x 11", Excipio can be controlled with the included pen, touch or by remote keyboard. The display is a high-brightness AMLCD. Storage is provided on hard disk drive and on the PCMCIA disk. Options include wire-less LAN, infrared keyboard and mouse. Standard is Ethernet 10BT LAN, printer port and serial port.

Availability is April 1999 for production units and OEM evaluation units in March 1999.

*Heritage Digital is a privately held concern located in Florence, South Carolina. The company, specializing in Internet/intranet applications, database, programming and imaging and was established in 1997.*
